Designed & Manufactured in the USA

Outstanding Hole Accuracy & Repeatability

Amazing Tool Life & Performance

Impressive Cost-Per-Hole Results

High Performance Drills for Aluminum & Aluminum Alloys

Solid Round & Coolant-Through

- Best-in-class performance in 6061 Aluminum with superior performance in Aluminum and Aluminum Alloys
- Engineered with proven geometries and a cylindrical margin design
- Stocked in diameter ranges from 1.587 mm - 12.700 mm for 3x and 5x solid round drilling and 5x and 8x coolant-through drilling

High Performance Drills for Steels

Solid Round & Coolant-Through

- Exceptional design in 4140 Steel and other Alloy Steels
- Engineered with double margin geometry for impressive performance and stability
- Stocked in diameter ranges from 1.587 mm - 12.700 mm for 3x, 5x, 8x solid round drilling and 5x and 8x coolant-through drilling

From the experts behind **Helical Solutions'** High Performance End Mills, comes a **new brand** that delivers on what you want most from your drills.

What Sets Valor Holemaking Apart?

- Superior performing, **American-made** products optimized for specific materials
- **100% stock** levels and reliable shipping methods
- Advanced technical **support and resources**, including Machining Advisor Pro (MAP)

User Friendly Product Table Filtering

Check Real-Time Stock of Valor Holemaking Products

Customizable Running Parameters With Machining Advisor Pro (MAP)

Send Shopping Carts to a Participating Distributor or Purchasing Agent

Speeds & Feeds for every Valor Holemaking Tool

Simulation Files in .STEP Format for Every Valor Holemaking Tool

Industry-leading CAM software packages to simplify your machining operation setup

Access 100+ Machining tricks, tips, and how-to guides on the "In the Loupe" blog

www.valorholemaking.com

Several industry-leading technical resources are available to Valor Holemaking customers. From SIM Files, Speeds & Feeds Charts, and CAM Tool Libraries to Machining Advisor Pro (MAP), we complement your premium Valor Holemaking Product with equally beneficial resources to take you further.
